APPLICATION

Cholesterol Lowering's ingredients may have a significant influence on lowering cholesterol levels, which are:

- The ingredient Policosanol a natural plant waxes have been researched extensively and the research confirmed that Policosanol do reduce the LDL-C levels and total cholesterol levels.
- The micro nutrients Zink, Copper, Selenium and Chromium have all extensively researched individually and in combination, and been proven to be beneficial in cardiovascular health.

Cholesterol Lowering's calcium and magnesium content is a natural proven bioavailable substance. Calcium - an essential mineral plays an extremely important role in the general metabolism of the human body. Fifty percent of magnesium found in the body, is founded in bone. The rest of these two essentials minerals are involved in enzyme reactions, nerve functioning, muscle relaxing and maintaining healthy blood vessels.
